

Love

DANICA +
CAMERON'S
WEDDING

Danica and Cameron decided early on that they wanted a simple, elegant wedding, with a focus on quality time spent with family and friends. They organised an intimate celebration that played out over the course of a long weekend—something they both highly recommend. 'Making an entire weekend out of the celebration releases pressure for the actual day,' the couple said. 'It was really nice being able to spend so much quality time with everybody on the Friday before, and for the catered brunch we had the following day.'

THE LOCATION

The couple got married at Merribee in Numbaa, NSW, and fell in love with the location as soon as they saw it. They wanted the lush green hedges and Rose gardens to take centre stage, and for everything else to look like an extension of the surroundings.

THE STYLING

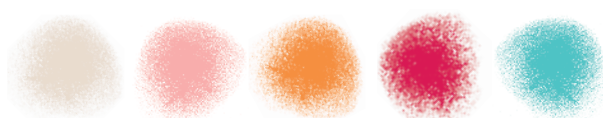

Danica and Cameron styled their wedding using neutral tones and natural textures to complement the surrounding gardens and outdoor setting.

TO ACHIEVE THIS LOOK

- * Incorporate natural timber elements to evoke a rustic vibe.
- * Use bright pops of colour against a muted palette.
- * Let your venue and surrounds speak for themselves.

THE COLOUR PALETTE

Colour was kept to a minimum, but the couple included bright pops used sporadically to liven up their neutral palette.

THE FLORALS

GARDEN ROSES, ROSEMARY, STOCK, LILY OF THE VALLEY, LAVENDER, BABY'S BREATH.

SEASON: SPRING

STYLE: RUSTIC

SETTING: AL FRESCO
